LLC INSTRUCTOR AND DRIVER CERTIFICATION

How to Implement LLC Driver Certification

LLLC Driver Certification Process

Congratulations on becoming an LLLC Certified Instructor! You should be extremely proud of your commitment, investment and achievement to make the roads safer. You now have a wealth of defensive driving knowledge that needs to be shared throughout the fleet using LLLC Driver Certification. It is a simple three-step process to implement.

Complete Self-Directed Learning

- The A-Fleet: 6 Modules + Final Exam

Attend a 1-Hour Classroom

- Understanding Safety & Risk
- LLLC: The Four Principles to Driving Safely

Pass the Behind-The-Wheel Evaluation

- 1-Hour LLLC Commentary Driving

Best Practices Implementation

To help you implement LLLC Driver Certification, we've broken out best practices for onboarding new drivers and experienced drivers. Use the Learning Management System to schedule the six A-Fleet self-directed online modules each week or every other week to complete the certification process while reinforcing the defensive driving behaviors over time.

For Onboarding New Drivers:

Take advantage of the face-to-face time during orientation by implementing the classroom workshop and Behind-The-Wheel evaluation. Then, assign your new driver the six Self-Directed Courses to complete on their own time and earn their Certification.

For Experienced Drivers:

Incorporate the six Self-Directed Courses into your existing monthly training curriculum. Upon completion of the courses, have the drivers schedule individual or group (no more than three at a time) Classroom Workshop and Behind-The-Wheel evaluation.

LLLC Marketplace

Reward your drivers with LLLC gear from the LLLC Marketplace. Drivers can earn items such as hats, gloves, jackets or thumper for completing courses.

Visit llc-marketplace.avatarfleet.com to view the marketplace.

REVIEWS

"In the past 3 years, our accident rate has dropped over 65%. Our insurance rates have dropped considerably, when most others are rising. We've been recognized by our insurer as an example of the type of transportation business that they want! LLLC principles have made all of your operators better drivers, and the statistics are the proof."

- Zane Webster, New Orleans Tours

"LLLC is a much more simple format for our drivers to grasp the concept of defensive driving."

- Greg Ritchie, Mabe Trucking

"The LLLC principle is an easy thing to remember and to teach new drivers. It is a very interesting course and the instructor had a lot of experience to share with the class to make it interactive."

- Sylvain Racicot, C.A.T.
